● WORK EXPERIENCE

01/07/2025 - 31/12/2025 - DAMASCUS, SYRIA

ARTIFICIAL INTELLIGENCE ENGINEER TOOLII

OCR Optimization

- Replaced a paid Azure OCR service with a fine-tuned open-source alternative, significantly reducing operational costs while maintaining high accuracy for document processing.
- Gained expertise in: OCR technologies, model fine-tuning techniques, cost-benefit analysis of cloud vs. open-source solutions.

Robotic Agent System

- Architected and developed an intelligent agent system for a robotic receptionist in a clinic. Designed the overall system architecture and implemented specific modules, including the robot's gesture control system to enhance human-robot interaction.
- Acquired skills in: robotics system design, human-robot interaction principles, gesture control mechanisms, agent-based architecture.

Email Automation Tool

- Developed a Python-based desktop application that automatically extracts and classifies incoming emails based on predefined interests (specifically patient information), streamlining data entry and information management.
- Strengthened: Python development skills, learned email parsing techniques, classification algorithms, desktop application deployment

Web Application

- Converted UI components into code using Laravel Blade and built a comprehensive clinic management website using Laravel. Integrated an AI bot to handle patient inquiries, manage reservations, and facilitate appointment registration, with a dedicated dashboard for doctors to review and approve requests.
- Mastered: Laravel framework, Blade templating, full-stack web development, AI bot integration, database management for healthcare applications.

Website: toolii.com.au

01/01/2025 - 30/06/2025 - DAMASCUS, SYRIA

FULL STACK DEVELOPER ZORBA

- Developed websites using Laravel for Back-end and ReactJS for front-end.
- High-Performance Search: Deployed Elasticsearch for high-volume data retrieval, ensuring $O(\log n)$ query performance during peak traffic.
- Fintech Integrations: Managed end-to-end payment lifecycles with Stripe/PayPal API, including webhooks and automated invoicing.
- Real-Time Systems: Developed a low-latency communication engine using WebSockets (Pusher) and modular React.js components.

● COMPETITIVE PROGRAMMING & LEADERSHIP

My participation at ICPC

- Top 20 National Finish: Secured 18th place nationally at SCPC 2025 among competing teams from across

Syria.

- **Consistent Medalist:** Earned two medals at the Damascus Collegiate Programming Contest (DCPC 2022, 2024), demonstrating sustained high performance.
- **Student-Elected Coach:** Selected by peers to coach undergraduate contestants at Damascus University, delivering sessions on Dynamic Programming, Graph Theory, and Advanced Data Structures.
- **Active Problem Solver:** Maintain regular participation in Codeforces contests, specializing in computational geometry and optimizing algorithm efficiency.
- **Multi-Year Competitor:** Competed in four regional and national contests: DCPC 2022, DCPC - SCPC 2023, DCPC 2024, and DCPC - SCPC 2025.

● **EDUCATION & TRAINING**

2021 - 2026 - DAMASCUS , SYRIA
BACHELOR OF ARTIFICIAL INTELIGENCE - DAMASCUS UNIVERSITY

01/11/2020 - 02/04/2022 - DAMASCUS , SYRIA
DIPLOMA IN ENGLISH - NEW HORIZONS

Field(s) of study: Education

● **LANGUAGE SKILLS**

Mother tongue(s): ARABIC

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	B2

● **SKILLS**

computer programming | debug software | use software libraries | python | c++ | Laravel | ReactJS | Typescript | Javascript | Elasticsearch | WebSockets | Git | MySQL | OCR Optimization, NLU, NLP, Gesture Recognition

● **VOLUNTEERING**

14/10/2025 - CURRENT Faculty of Information Engineering, Damascus University
Media Team I have volunteered at Media Team which is part of The Students Committee.

- Served as the primary liaison between fifth-year students and faculty members, facilitating effective communication and ensuring student concerns were clearly conveyed to the academic staff.
- Coordinated closely with students to monitor their academic and administrative affairs, proactively addressing issues and resolving conflicts to support a smooth educational experience.

01/01/2026 - CURRENT Damascus University

- Member of the fifth year section, AI specialization.
- Served as an official member of the Student Association, formally representing the student body within the university and contributing to union decision-making processes.
- Acted as a formal representative to voice student concerns, needs, and suggestions, ensuring effective communication between the student community and university administration.
